Why this lesson is next

L001 is prepared prospectively while actual learner closure remains empty; compiled L000 is a readiness receipt, not learner evidence.

Predicted dosage

Four local models, four 4-item controlled gates, sixteen mixed items, six story pages, two narrative checks, four post-story transfer checks, and four closing retrievals.

Picture book

For presentation and practice, reviewed image-bank photographs and drawings show the same four ordinary object kinds in varied styles. The later purpose-made illustrated micro-story begins with one cup, one plate, one spoon, and one bowl visibly separated from four distinct matching positions, develops as the four objects are moved into their matching positions, and resolves with all four visibly distinguished in one completed arrangement. The event is noncanonical, uses no named or recurring participant, scores only the four object-kind distinctions and four bare labels, and conveys every required learner action through frozen nonverbal machine controls rather than added learner-facing language.

Teaching controls and stop conditions

Luna may choose only from this protocol-level tool set during rehearsal. A tool remains unusable unless the lesson and rehearsal specification license it for the current exercise.

SHOW_ASSET	Show a prepared lesson asset.
SHOW_CROP	Show a precomputed literal crop; never generate one live.
SHOW_HIGHLIGHT	Show a prepared context-preserving highlight.
REPLAY_PRESENTATION	Replay the frozen presentation within budget.
ASK_BOUNDED_CLARIFICATION	Ask one licensed clarification question.
CHECK_UNDERSTANDING	Check whether teacher wording and focus were understood.
PRESENT_AGAIN	Replay only the licensed frozen presentation item, within its use budget, then cold-retest the gate.
TRAIN_MORE	Add one bounded Point-safe example using frozen reviewed assets and log the decision basis.
TRAIN_LONGER	Run a bounded varied ordering of frozen mixed-practice items and log the stop count.
REPLAY_LESSON	Replay the frozen lesson at most as licensed; never create new material live.
FINISH	Close the lesson and write the report; issue no further learner prompts.
ALARM	Freeze immediately when the lesson, visual, language, or protocol is unsafe or inadequate.
