

L001 - Ordinary table objects

lesson-ordinary-table-objects-v2

Status	frozen
Variant	picture_book
Target language	English
Principal Point	L001-table-object-labels: Activate the labels cup, plate, spoon, bowl, fork, knife, glass, napkin
Lesson SHA-256	3d52e4922e3dc549d53251a7f937621eaa7ef314be7718ac8de3ff2b2aba1967

Story-interface teaching	2
Picture-book comprehension	6
Unseen transfer	8
Closing recap	8

Why this lesson is next

L001 is prepared prospectively while actual learner closure remains empty; compiled L000 is a readiness receipt, not learner evidence.

Predicted dosage

Four local models, four 8-item controlled gates, 32 mixed items, 10 story pages, 16 comprehension and transfer checks, and 8 closing retrievals.

Prerequisites

None

Affirmative presentation - l001-p1-affirmative-model

What Luna shows - bounded visual choices

reviewed image-bank depiction of cup; variant 1

Exercise I001-p1-affirmative-model

model: cup
model: plate
model: spoon
model: bowl
model: fork
model: knife
model: glass
model: napkin

Expected	-
Must remain true	Each affirmative model covers all eight bare labels with machine controls and no spoken instruction.; This worked local model is emitted immediately before its bound controlled gate.; Every displayed object is an exact pixel-reviewed image-bank photograph; no picture-book illustration is used.
Visuals	bank-cup-01, bank-plate-01, bank-spoon-01, bank-bowl-01, bank-fork-01, bank-knife-01, bank-glass-01, bank-napkin-01
Target production	Not required
Machine action	WORKED_affirmative
Semantic task	-
Displayed mismatch	-
Story anchor	-

Visual options	None

Affirmative presentation - I001-p1-affirmative-model-check-understanding

What Luna shows - bounded visual choices

reviewed image-bank depiction of cup; variant 1
Asset bank-cup-01; crop [0, 0, 384, 512]

reviewed image-bank depiction of plate; variant 1
Asset bank-plate-01; crop [384, 0, 384, 512]

Exercise I001-p1-affirmative-model-check-understanding

MACHINE_CONTROL

Expected	check-affirmative-cup
Must remain true	Unscored interface check for the affirmative machine control.; This response confirms only control understanding and never contributes to label, concept, gate, mixed, or lesson mastery.; Failure replays the worked control once; persistent failure freezes with ALARM rather than entering scored practice.
Visuals	bank-cup-01, bank-plate-01
Target production	Not required
Machine action	SHOW_LABEL_SELECT_MATCHING_IMAGE
Semantic task	select_image_matching_displayed_bare_label
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	check-affirmative-cup: None (bank-cup-01); check-affirmative-plate: None (bank-plate-01)

Affirmative practice - l001-cp-a01-cup

reviewed image-bank depiction of napkin; variant 1
Asset bank-napkin-01; crop [1152, 512, 384, 512]

Exercise I001-p4-OR_question-model

model: cup
model: plate
model: spoon
model: bowl
model: fork
model: knife
model: glass
model: napkin

Expected	-
Must remain true	Each OR_question model covers all eight bare labels with machine controls and no spoken instruction.; This worked local model is emitted immediately before its bound controlled gate.; Every displayed object is an exact pixel-reviewed image-bank photograph; no picture-book illustration is used.
Visuals	bank-cup-01, bank-plate-01, bank-spoon-01, bank-bowl-01, bank-fork-01, bank-knife-01, bank-glass-01, bank-napkin-01
Target production	Not required

Picture book

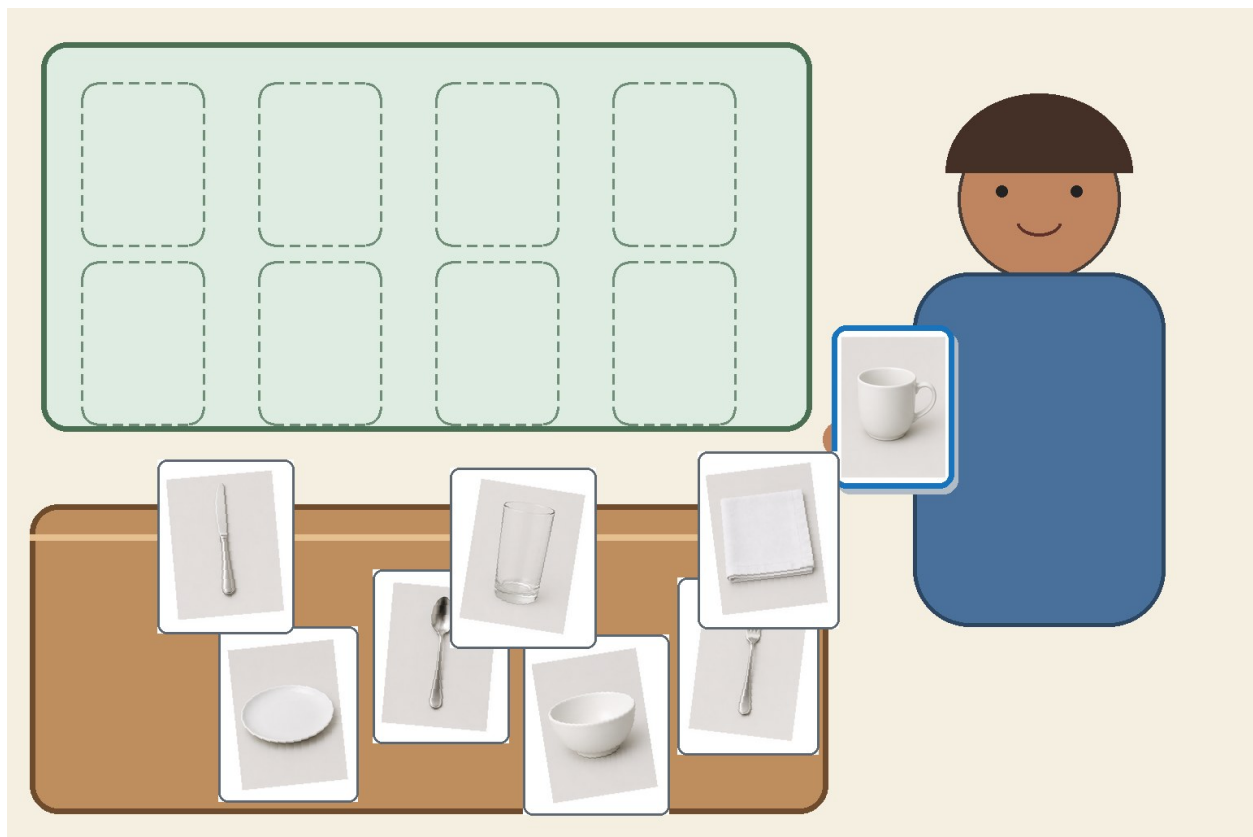

The initial page visibly shows exactly eight immutable picture cards—cup, plate, spoon, bowl, fork, knife, glass, and napkin—scattered and overlapping in the source area, while all eight board spaces are empty. The obvious problem is that the cards are disordered; the visible goal is an orderly board with one card in each space. Every card contains the exact same reviewed photograph of its object kind on every page. In one connected eight-step event, the neutral helper organizes the same eight cards one at a time in frozen order cup, plate, spoon, bowl, fork, knife, glass, napkin. Each page visibly preserves every card exactly once: cards already handled are in distinct board spaces, the next card is visibly being placed into the next empty board space, and remaining cards stay visible in the disordered source area. The board spaces are equal display spaces, not object-specific matching locations; no relation is asserted beyond organizing one card per space. No card is redrawn, substituted, duplicated, hidden, fused, or identity-shifted. The terminal page visibly shows all eight unchanged picture cards arranged neatly, one per board space, with the source area empty. The neutral helper is visibly celebrating the completed orderly display with a simple raised-arms gesture and nonverbal celebratory marks. The event stops at this resolved organization. No character identity, ownership, use, food, material, color category, matching location, spatial vocabulary, direction, order vocabulary, or interface knowledge is established or scored.

Picture book - I001-a002-story-v3-p01-disordered-goal

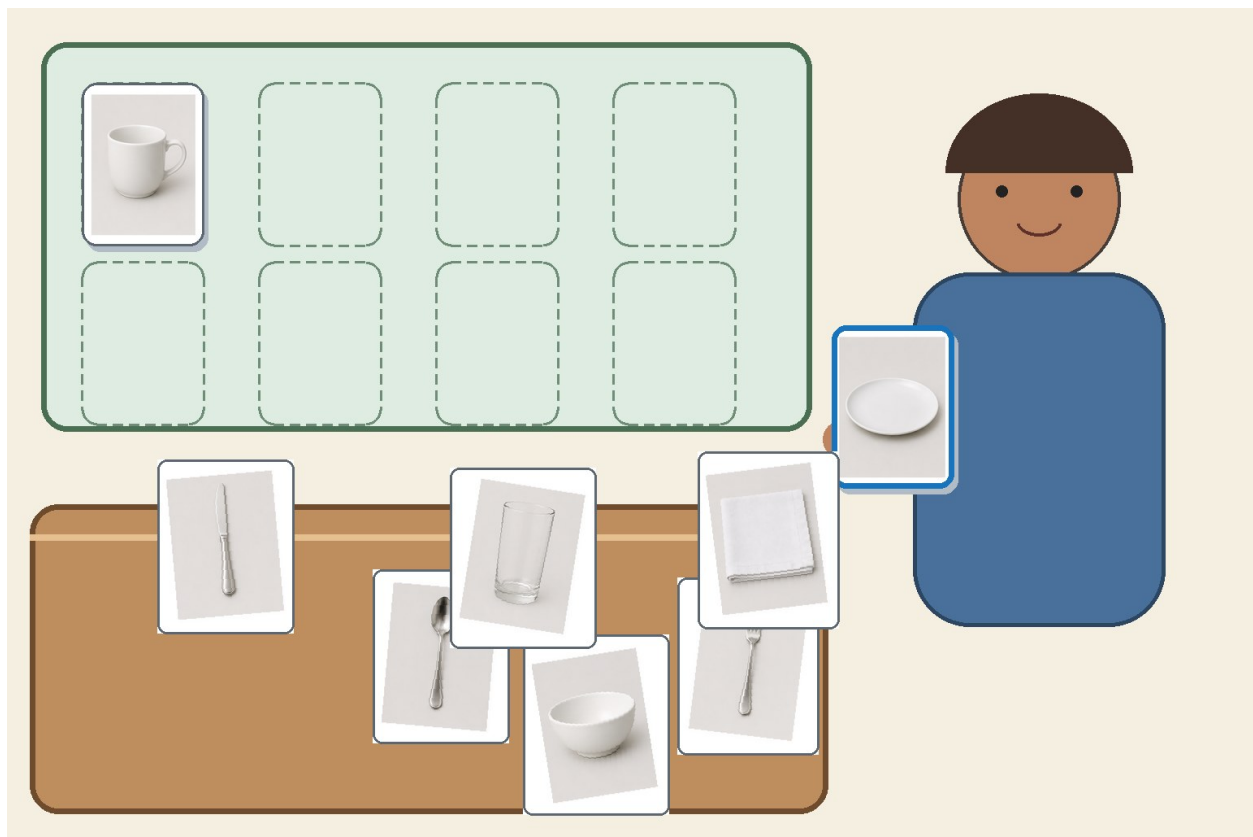

Caption	cup · plate · spoon · bowl · fork · knife · glass · napkin
Dialogue	Display: cup Display: plate Display: spoon Display: bowl Display: fork Display: knife Display: glass Display: napkin
Scene facts	Exactly one of each of the eight immutable cards is visible.; The source cards are visibly disordered and all eight board spaces are empty.; The helper and a simple board cue visibly establish the goal of an orderly display; no card-specific matching locations are shown.
Exact visual	story-page-01

Picture book - l001-a002-story-v3-p02-cup

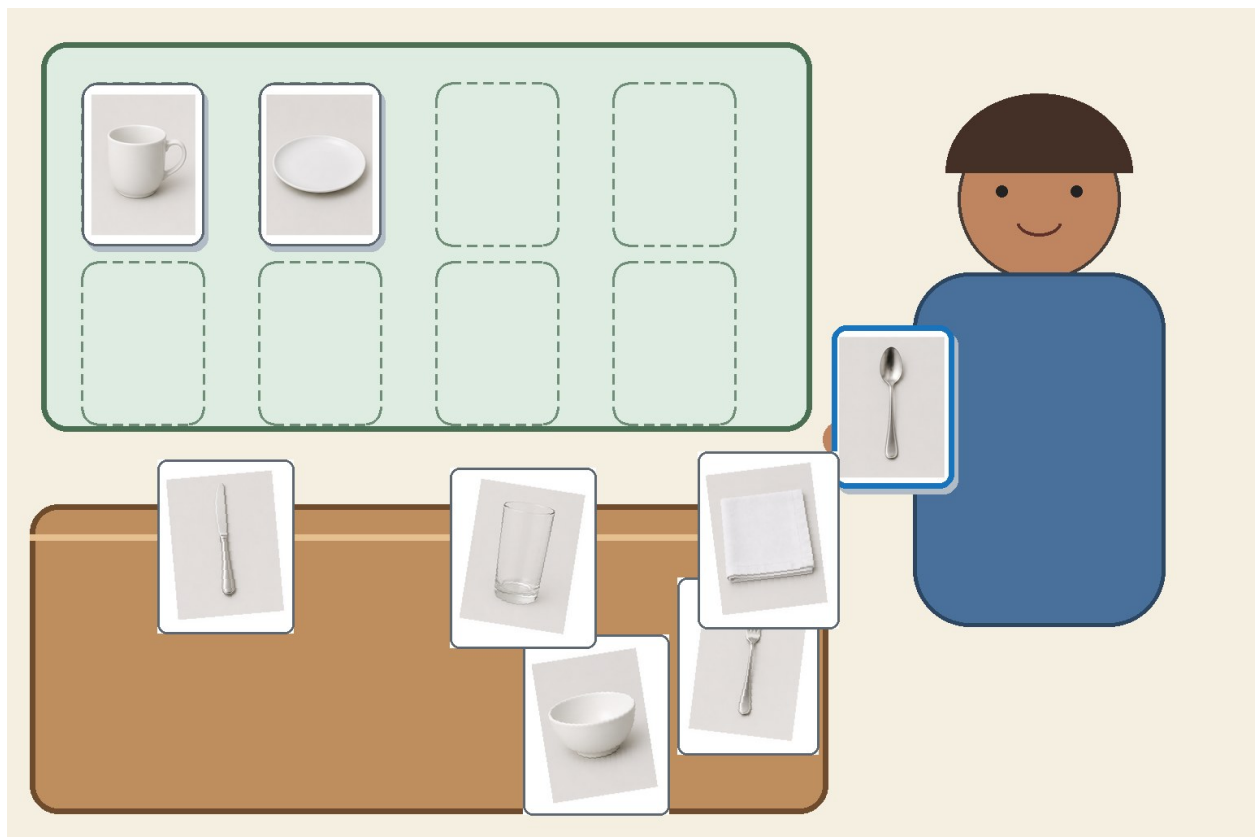

Caption	cup
Dialogue	Display: cup
Scene facts	Exactly one unchanged cup card is active and exactly one each of plate, spoon, bowl, fork, knife, glass, and napkin remains visible in the source area.; No card-specific board matching relation is depicted.
Exact visual	story-page-02

Picture book - l001-a002-story-v3-p03-plate

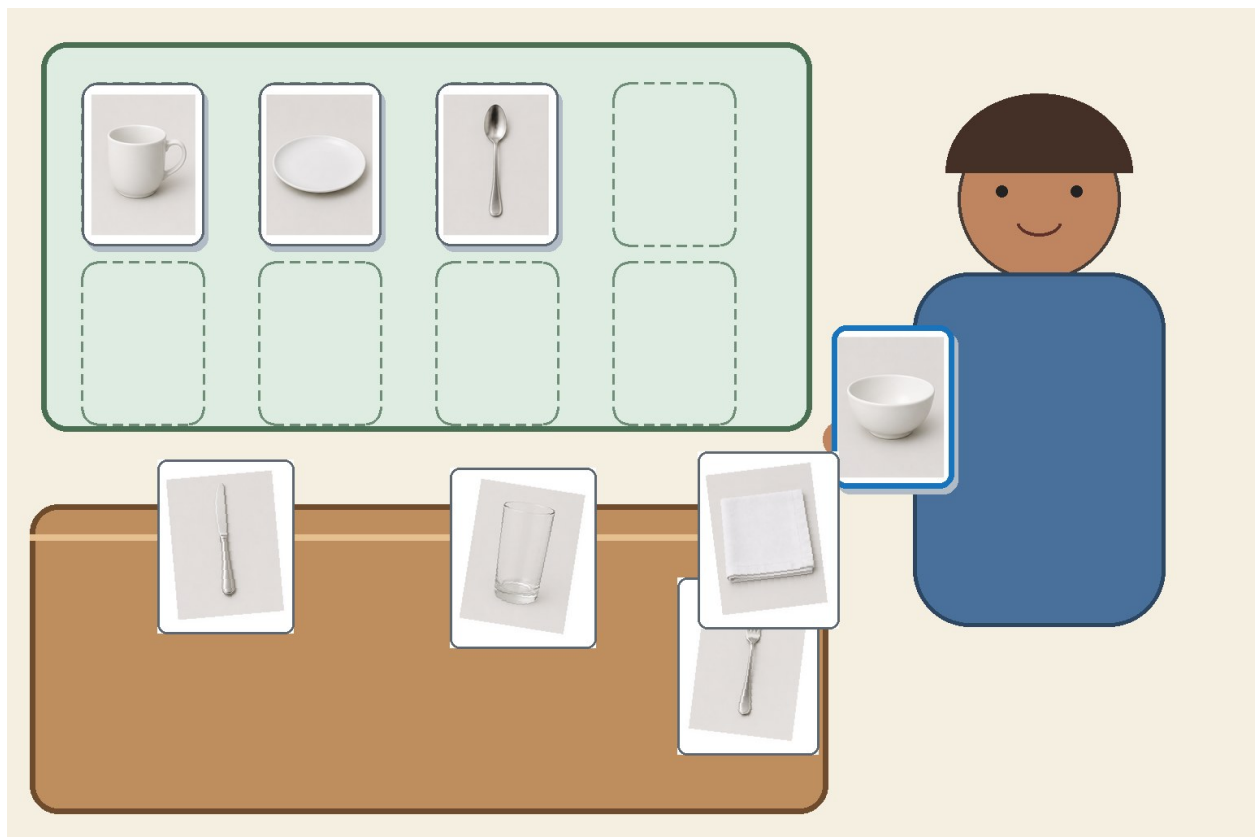

Caption	plate
Dialogue	Display: plate
Scene facts	Exactly one each of cup, plate, spoon, bowl, fork, knife, glass, and napkin remains visible; cup is completed and plate is active.; Board spaces are generic equal display spaces, not matching locations.
Exact visual	story-page-03

Picture book - I001-a002-story-v3-p04-spoon

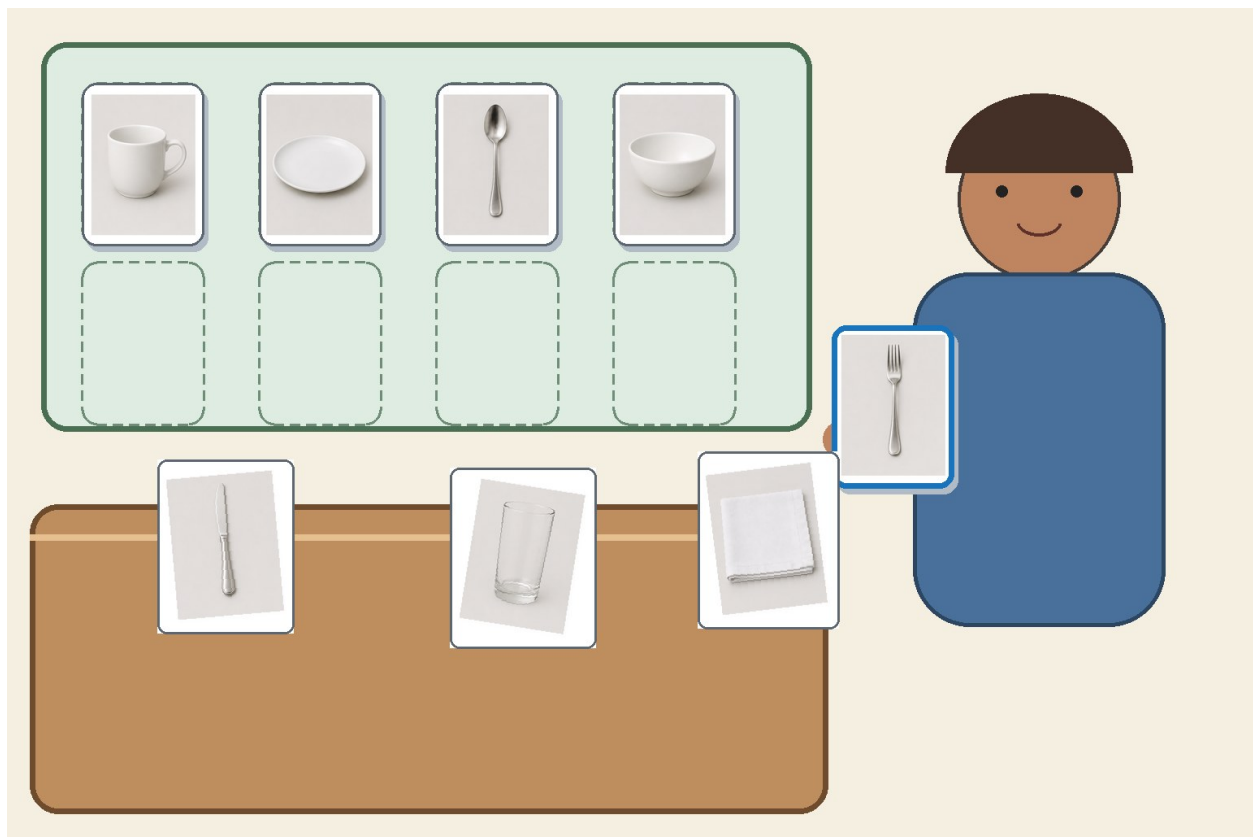

Caption	spoon
Dialogue	Display: spoon
Scene facts	Exactly one each of the eight cards remains visible; cup and plate are completed and spoon is active.; Only one-card-at-a-time organization is depicted.
Exact visual	story-page-04

Picture book - l001-a002-story-v3-p05-bowl

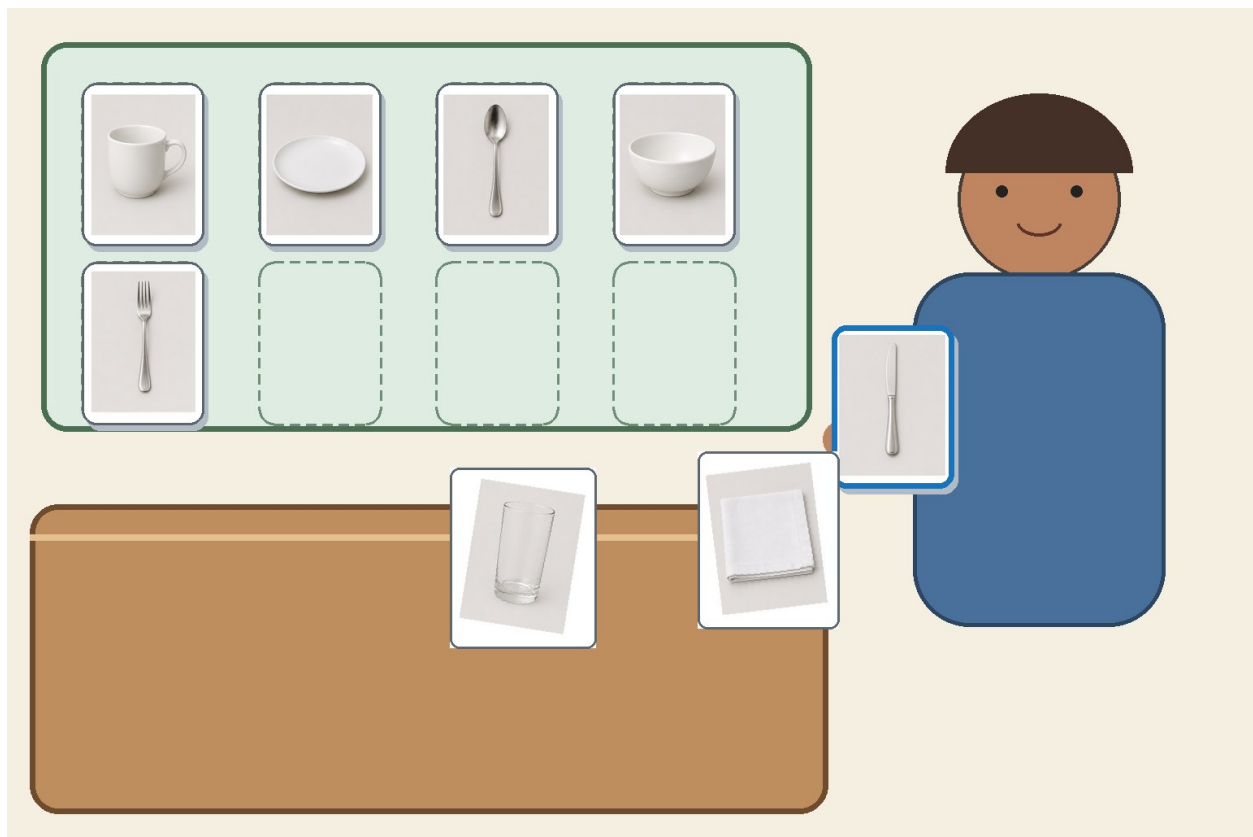

Caption	bowl
Dialogue	Display: bowl
Scene facts	Exactly one each of the eight cards remains visible; three are completed and bowl is active.; No object use or card-specific matching is shown.
Exact visual	story-page-05

Picture book - l001-a002-story-v3-p06-fork

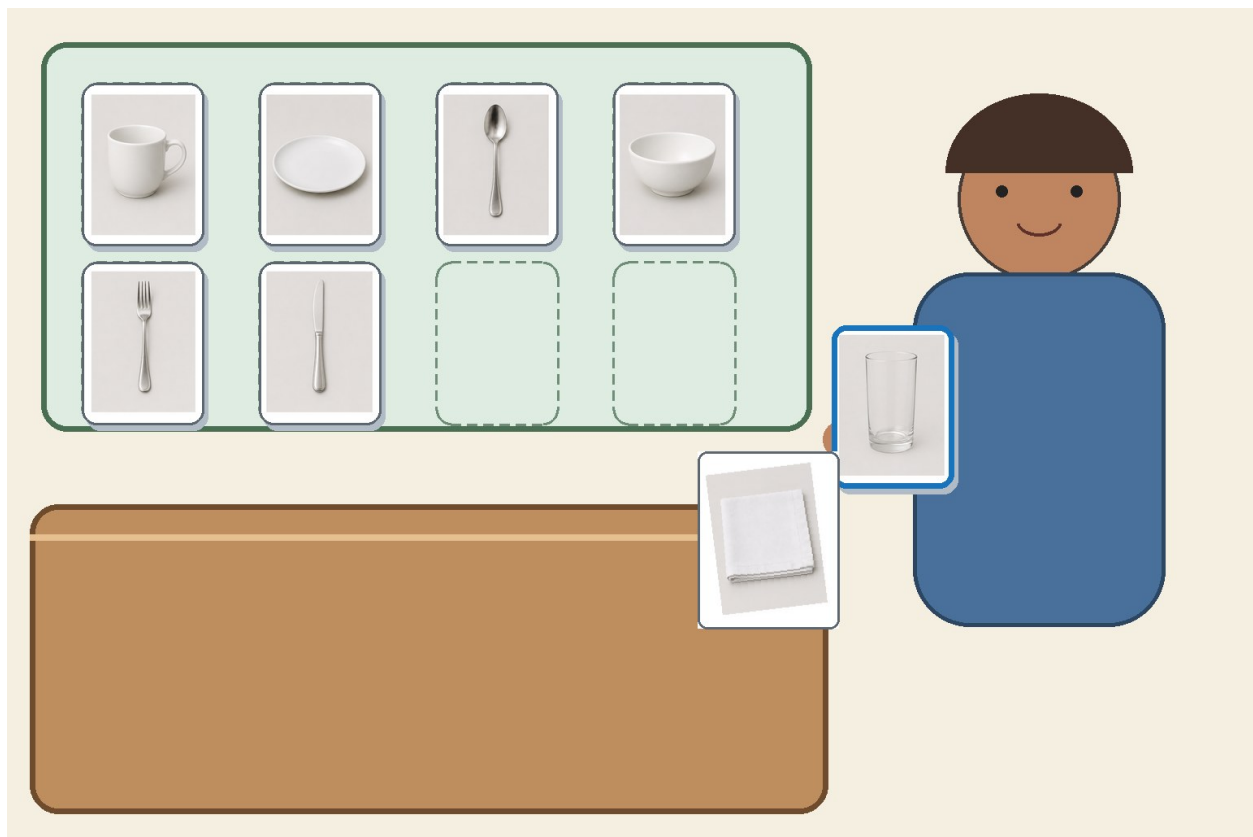

Caption	fork
Dialogue	Display: fork
Scene facts	Exactly one each of the eight cards remains visible; four are completed and fork is active.; The helper's action is organizing cards, not teaching a board-location match.
Exact visual	story-page-06

Picture book - I001-a002-story-v3-p07-knife

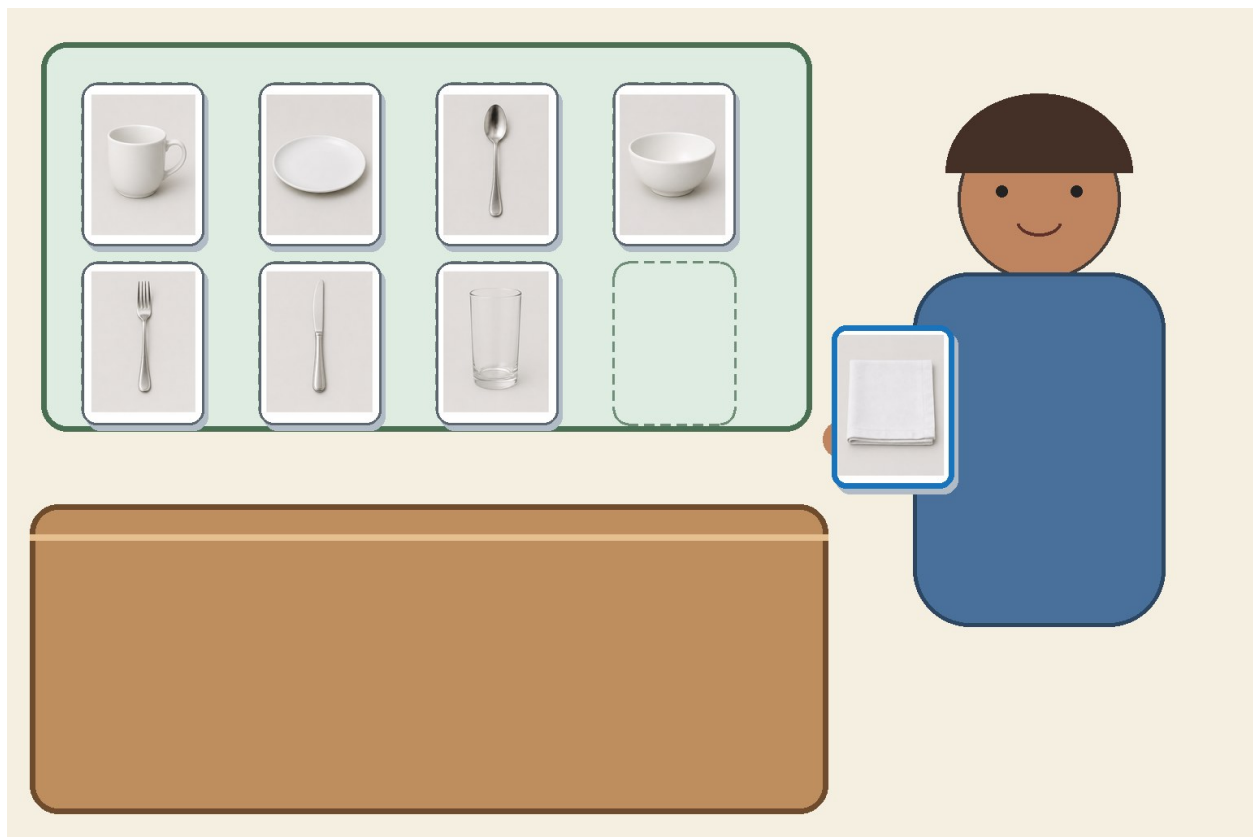

Caption	knife
Dialogue	Display: knife
Scene facts	Exactly one each of the eight cards remains visible; five are completed and knife is active.; All card photographs remain the same immutable reviewed photographs.
Exact visual	story-page-07

Picture book - l001-a002-story-v3-p08-glass

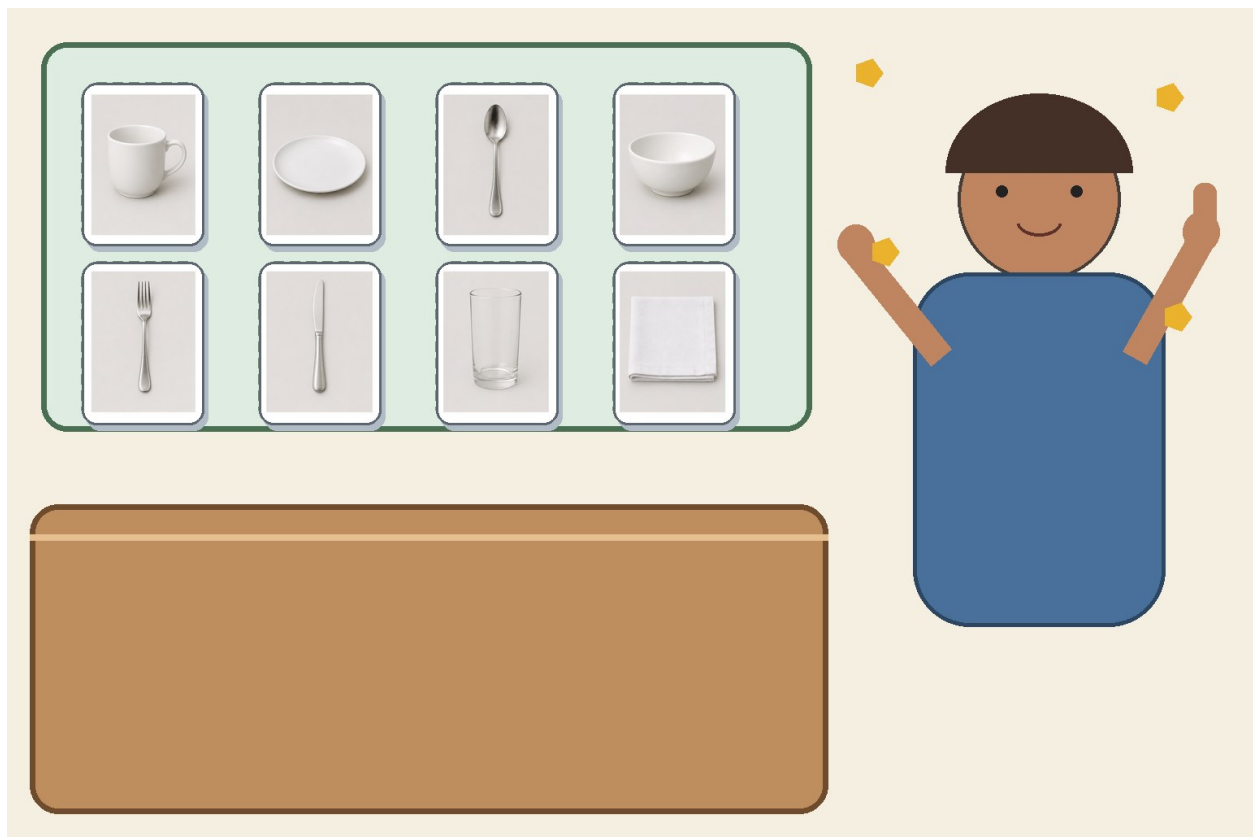

Caption	glass
Dialogue	Display: glass
Scene facts	Exactly one each of the eight cards remains visible; six are completed and the glass card is active.; Glass denotes the drinking vessel pictured on the card, not a material category.
Exact visual	story-page-08

Picture book - I001-a002-story-v3-p09-napkin

Caption	napkin
Dialogue	Display: napkin
Scene facts	Exactly one each of the eight cards remains visible; seven are completed and napkin is active.; The final open board space is a generic display space, not a matching location.
Exact visual	story-page-09

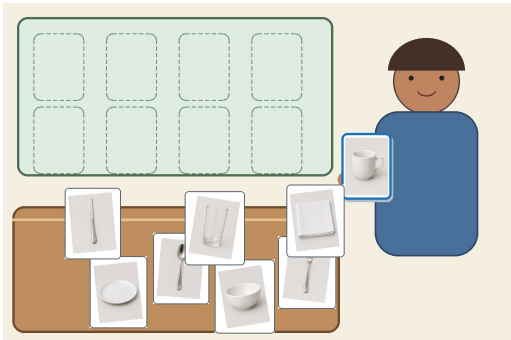

Picture book - l001-a002-story-v3-p10-resolution-celebration

Exercise l001-a002-v3-next-after-fork

Machine action	SHOW_PAGE_SELECT_NEXT_SCENE
Semantic task	select_scene_of_next_story_page
Displayed mismatch	-
Story anchor	story-page-06
Worked items	None
Worked demos	None
Visual options	next-fork-to-knife: story-page-07 (story-page-07); next-fork-to-cup: story-page-02 (story-page-02)

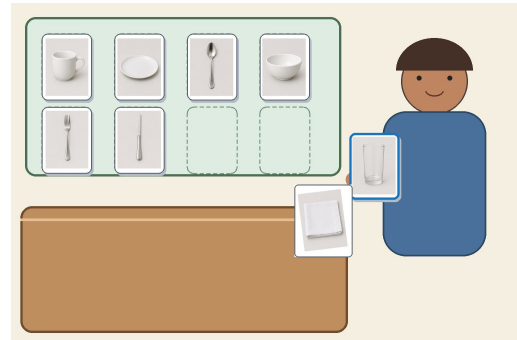

Picture-book comprehension - I001-a002-v3-next-after-knife

What Luna shows - bounded visual choices

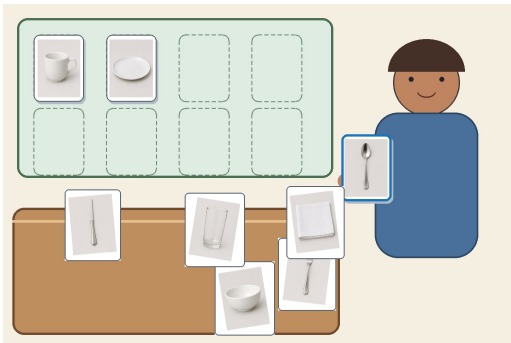

picture-book page 7

Asset story-page-07

picture-book page 8

Asset story-page-08

picture-book page 4

Asset story-page-04

Exercise I001-a002-v3-next-after-knife

MACHINE_CONTROL

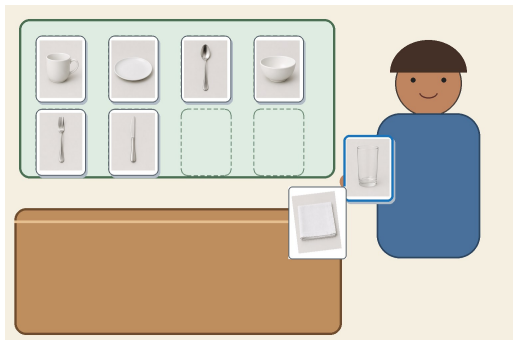

Expected	next-knife-to-glass
Must remain true	After the knife card is held, the next connected event organizes the glass card.; Success shows recall of event order after the complete story; it does not score the current label, spatial position, direction, matching, or interface knowledge.
Visuals	story-page-07, story-page-08, story-page-04
Target production	Not required

Exercise l001-a002-v3-next-after-knife

Machine action	SHOW_PAGE_SELECT_NEXT_SCENE
Semantic task	select_scene_of_next_story_page
Displayed mismatch	-
Story anchor	story-page-07
Worked items	None
Worked demos	None
Visual options	next-knife-to-glass: story-page-08 (story-page-08); next-knife-to-spoon: story-page-04 (story-page-04)

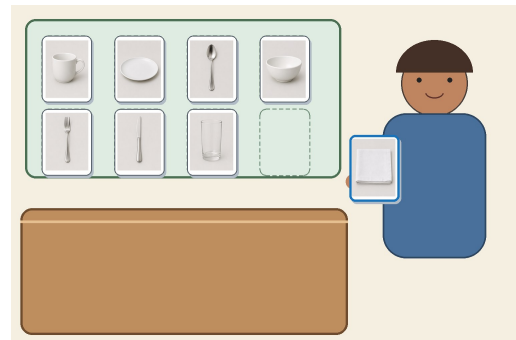

Picture-book comprehension - I001-a002-v3-next-after-glass

Exercise I001-a002-v3-next-after-glass

MACHINE_CONTROL

Expected	next-glass-to-napkin
Must remain true	After the glass card is held, the next connected event organizes the napkin card.; Success shows recall of the final organizing transition after the complete story; it does not score the current label, spatial position, direction, matching, or interface knowledge.
Visuals	story-page-08, story-page-09, story-page-05
Target production	Not required

Exercise l001-a002-v3-next-after-glass

Machine action	SHOW_PAGE_SELECT_NEXT_SCENE
Semantic task	select_scene_of_next_story_page
Displayed mismatch	-
Story anchor	story-page-08
Worked items	None
Worked demos	None
Visual options	next-glass-to-napkin: story-page-09 (story-page-09); next-glass-to-bowl: story-page-05 (story-page-05)

Unseen transfer - I001-a002-v3-transfer-cup

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of cup; variant 3
Proof	Literal panel extraction isolates the complete cup so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-cup-03; crop [x=0, y=0, width=384, height=512]

Exercise I001-a002-v3-transfer-cup

MACHINE_CONTROL

Expected	cup
Must remain true	An unseen reviewed photo tests cup directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-cup-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Unseen transfer - I001-a002-v3-transfer-plate

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of plate; variant 3
Proof	Literal panel extraction isolates the complete plate so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-plate-03; crop [x=384, y=0, width=384, height=512]

Exercise I001-a002-v3-transfer-plate

MACHINE_CONTROL

Expected	plate
Must remain true	An unseen reviewed photo tests plate directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-plate-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Unseen transfer - I001-a002-v3-transfer-spoon

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of spoon; variant 3
Proof	Literal panel extraction isolates the complete spoon so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-spoon-03; crop [x=768, y=0, width=384, height=512]

Exercise I001-a002-v3-transfer-spoon

MACHINE_CONTROL

Expected	spoon
Must remain true	An unseen reviewed photo tests spoon directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-spoon-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Unseen transfer - I001-a002-v3-transfer-bowl

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of bowl; variant 3
Proof	Literal panel extraction isolates the complete bowl so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-bowl-03; crop [x=1152, y=0, width=384, height=512]

Exercise I001-a002-v3-transfer-bowl

MACHINE_CONTROL

Expected	bowl
Must remain true	An unseen reviewed photo tests bowl directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-bowl-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Unseen transfer - I001-a002-v3-transfer-fork

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of fork; variant 3
Proof	Literal panel extraction isolates the complete fork so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-fork-03; crop [x=0, y=512, width=384, height=512]

Exercise I001-a002-v3-transfer-fork

MACHINE_CONTROL

Expected	fork
Must remain true	An unseen reviewed photo tests fork directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-fork-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Unseen transfer - I001-a002-v3-transfer-knife

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of knife; variant 3
Proof	Literal panel extraction isolates the complete knife so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-knife-03; crop [x=384, y=512, width=384, height=512]

Exercise I001-a002-v3-transfer-knife

MACHINE_CONTROL

Expected	knife
Must remain true	An unseen reviewed photo tests knife directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-knife-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Unseen transfer - I001-a002-v3-transfer-glass

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of glass; variant 3
Proof	Literal panel extraction isolates the complete glass so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-glass-03; crop [x=768, y=512, width=384, height=512]

Exercise I001-a002-v3-transfer-glass

MACHINE_CONTROL

Expected	glass
Must remain true	An unseen reviewed photo tests glass directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-glass-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Unseen transfer - I001-a002-v3-transfer-napkin

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of napkin; variant 3
Proof	Literal panel extraction isolates the complete napkin so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-napkin-03; crop [x=1152, y=512, width=384, height=512]

Exercise I001-a002-v3-transfer-napkin

MACHINE_CONTROL

Expected	napkin
Must remain true	An unseen reviewed photo tests napkin directly, independently of the story sequence.; The depiction was not used in the local presentation model.
Visuals	bank-napkin-03
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-

Closing recap - l001-r01-cup

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of cup; variant 2
Proof	Literal panel extraction isolates the complete cup so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-cup-02; crop [x=0, y=0, width=384, height=512]

Exercise l001-r01-cup

MACHINE_CONTROL

Expected	cup
Must remain true	Silent open image visibly depicts one ordinary cup.; No label or scaffold is visible.; Only bare target label is accepted.
Visuals	bank-cup-02
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-
Story anchor	-
Worked items	None
Worked demos	None
Visual options	None

Closing recap - I001-r02-plate

What Luna shows - LITERAL CROP

Caption	reviewed image-bank depiction of plate; variant 2
Proof	Literal panel extraction isolates the complete plate so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Source	Asset bank-plate-02; crop [x=384, y=0, width=384, height=512]

Exercise I001-r02-plate

MACHINE_CONTROL

Expected	plate
Must remain true	Silent open image visibly depicts one ordinary plate.; No label or scaffold is visible.; Only bare target label is accepted.
Visuals	bank-plate-02
Target production	Required
Machine action	SHOW_IMAGE_RECORD_BARE_LABEL
Semantic task	record_bare_label_for_shown_image
Displayed mismatch	-

Visual proof

Asset reference-board-v1

Purpose	purpose-made eight-panel table-object reference board variant 1
Source / operation	imagegen_generate / imagegen_generate
Teaching claims	The eight-panel master contains exactly one complete text-free depiction per panel in frozen order: cup, plate, spoon, bowl, fork, knife, drinking glass, napkin.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset reference-board-v2

Purpose	purpose-made eight-panel table-object reference board variant 2
Source / operation	imagegen_generate / imagegen_generate
Teaching claims	The eight-panel master contains exactly one complete text-free depiction per panel in frozen order: cup, plate, spoon, bowl, fork, knife, drinking glass, napkin.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset reference-board-v3

Purpose	purpose-made eight-panel table-object reference board variant 3
Source / operation	imagegen_generate / imagegen_generate
Teaching claims	The eight-panel master contains exactly one complete text-free depiction per panel in frozen order: cup, plate, spoon, bowl, fork, knife, drinking glass, napkin.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset reference-board-v4

Purpose	purpose-made eight-panel table-object fresh retest board variant 4
Source / operation	imagegen_generate / imagegen_generate
Teaching claims	The eight-panel master contains exactly one complete text-free depiction per panel in frozen order: cup, plate, spoon, bowl, fork, knife, drinking glass, napkin.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset reference-board-v5

Purpose	purpose-made eight-panel table-object TRAIN_MORE reserve board variant 5
Source / operation	imagegen_generate / imagegen_generate
Teaching claims	The eight-panel master contains exactly one complete text-free depiction per panel in frozen order: cup, plate, spoon, bowl, fork, knife, drinking glass, napkin.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset bank-cup-01

Purpose	reviewed image-bank depiction of cup; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete cup so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 0, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-cup-02

Purpose	reviewed image-bank depiction of cup; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete cup so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 0, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-cup-03

Purpose	reviewed image-bank depiction of cup; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete cup so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 0, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-cup-04

Purpose	reviewed image-bank depiction of cup; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete cup so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 0, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-cup-05

Purpose	reviewed image-bank depiction of cup; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete cup so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 0, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset bank-plate-01

Purpose	reviewed image-bank depiction of plate; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete plate so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 0, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-plate-02

Purpose	reviewed image-bank depiction of plate; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete plate so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 0, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-plate-03

Purpose	reviewed image-bank depiction of plate; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete plate so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 0, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-plate-04

Purpose	reviewed image-bank depiction of plate; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete plate so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 0, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-plate-05

Purpose	reviewed image-bank depiction of plate; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete plate so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 0, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset bank-spoon-01

Purpose	reviewed image-bank depiction of spoon; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete spoon so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 0, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-spoon-02

Purpose	reviewed image-bank depiction of spoon; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete spoon so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 0, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-spoon-03

Purpose	reviewed image-bank depiction of spoon; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete spoon so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 0, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-spoon-04

Purpose	reviewed image-bank depiction of spoon; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete spoon so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 0, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-spoon-05

Purpose	reviewed image-bank depiction of spoon; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete spoon so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 0, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset bank-bowl-01

Purpose	reviewed image-bank depiction of bowl; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete bowl so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 0, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-bowl-02

Purpose	reviewed image-bank depiction of bowl; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete bowl so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 0, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-bowl-03

Purpose	reviewed image-bank depiction of bowl; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete bowl so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 0, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-bowl-04

Purpose	reviewed image-bank depiction of bowl; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete bowl so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 0, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-bowl-05

Purpose	reviewed image-bank depiction of bowl; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete bowl so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 0, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset bank-fork-01

Purpose	reviewed image-bank depiction of fork; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete fork so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 512, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-fork-02

Purpose	reviewed image-bank depiction of fork; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete fork so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 512, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-fork-03

Purpose	reviewed image-bank depiction of fork; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete fork so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 512, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-fork-04

Purpose	reviewed image-bank depiction of fork; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete fork so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 512, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-fork-05

Purpose	reviewed image-bank depiction of fork; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete fork so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[0, 512, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset bank-knife-01

Purpose	reviewed image-bank depiction of knife; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete knife so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 512, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-knife-02

Purpose	reviewed image-bank depiction of knife; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete knife so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 512, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-knife-03

Purpose	reviewed image-bank depiction of knife; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete knife so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 512, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-knife-04

Purpose	reviewed image-bank depiction of knife; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete knife so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 512, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-knife-05

Purpose	reviewed image-bank depiction of knife; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete knife so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[384, 512, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset bank-glass-01

Purpose	reviewed image-bank depiction of glass; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete glass so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 512, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-glass-02

Purpose	reviewed image-bank depiction of glass; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete glass so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 512, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-glass-03

Purpose	reviewed image-bank depiction of glass; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete glass so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 512, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-glass-04

Purpose	reviewed image-bank depiction of glass; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete glass so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 512, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-glass-05

Purpose	reviewed image-bank depiction of glass; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete glass so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[768, 512, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset bank-napkin-01

Purpose	reviewed image-bank depiction of napkin; variant 1
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete napkin so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 512, 384, 512]
Parent	reference-board-v1
Pixel review	accepted

Asset bank-napkin-02

Purpose	reviewed image-bank depiction of napkin; variant 2
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete napkin so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 512, 384, 512]
Parent	reference-board-v2
Pixel review	accepted

Asset bank-napkin-03

Purpose	reviewed image-bank depiction of napkin; variant 3
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete napkin so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 512, 384, 512]
Parent	reference-board-v3
Pixel review	accepted

Asset bank-napkin-04

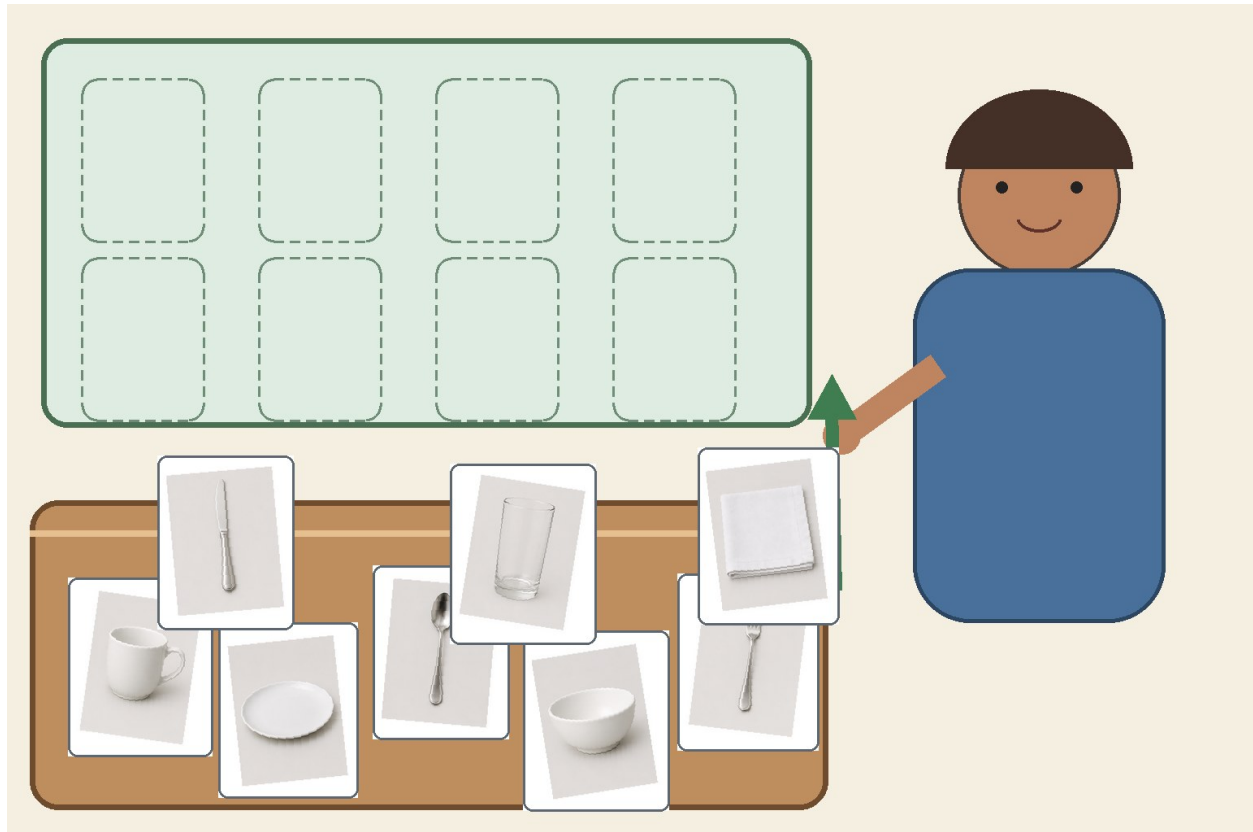

Purpose	reviewed image-bank depiction of napkin; variant 4
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete napkin so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 512, 384, 512]
Parent	reference-board-v4
Pixel review	accepted

Asset bank-napkin-05

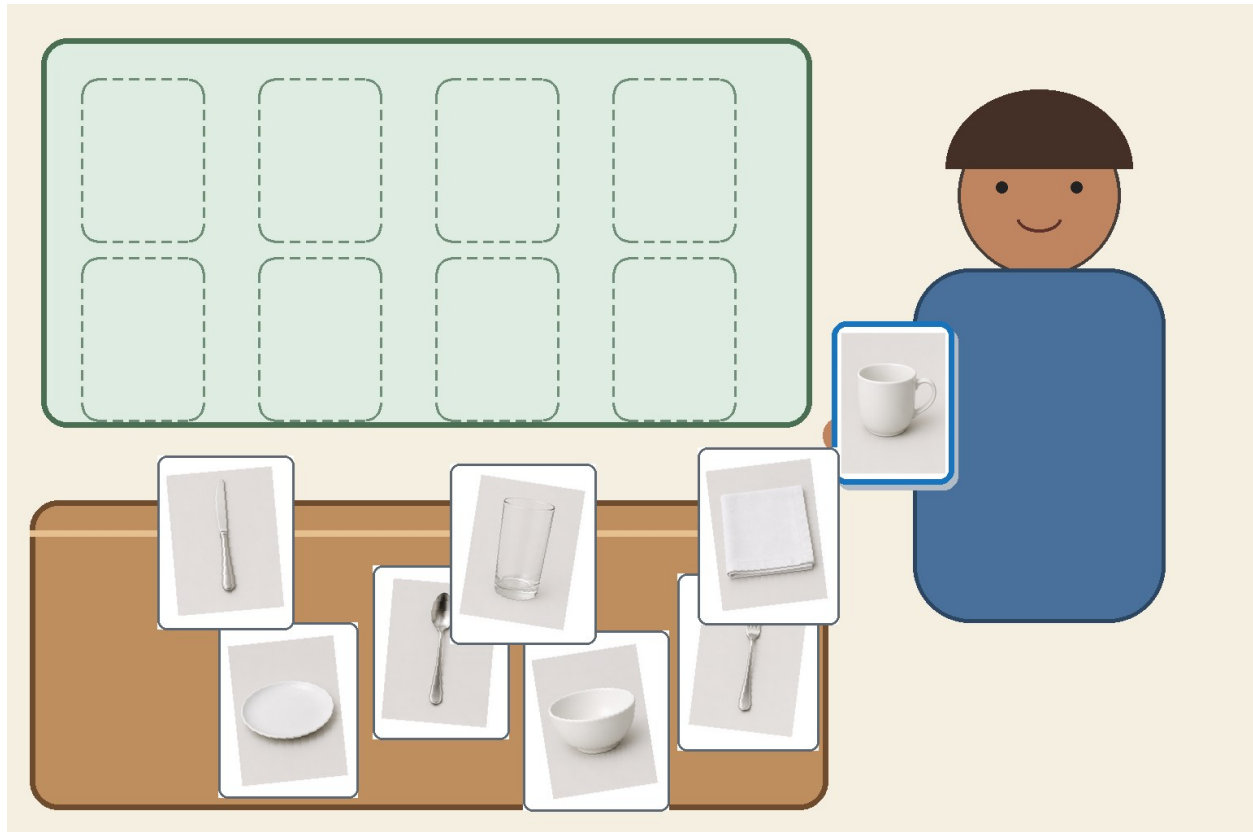

Purpose	reviewed image-bank depiction of napkin; variant 5
Source / operation	deterministic_crop / literal_crop
Teaching claims	Literal panel extraction isolates the complete napkin so neighboring vocabulary objects cannot become competing answers; no semantic operand is removed.
Crop	[1152, 512, 384, 512]
Parent	reference-board-v5
Pixel review	accepted

Asset story-page-01

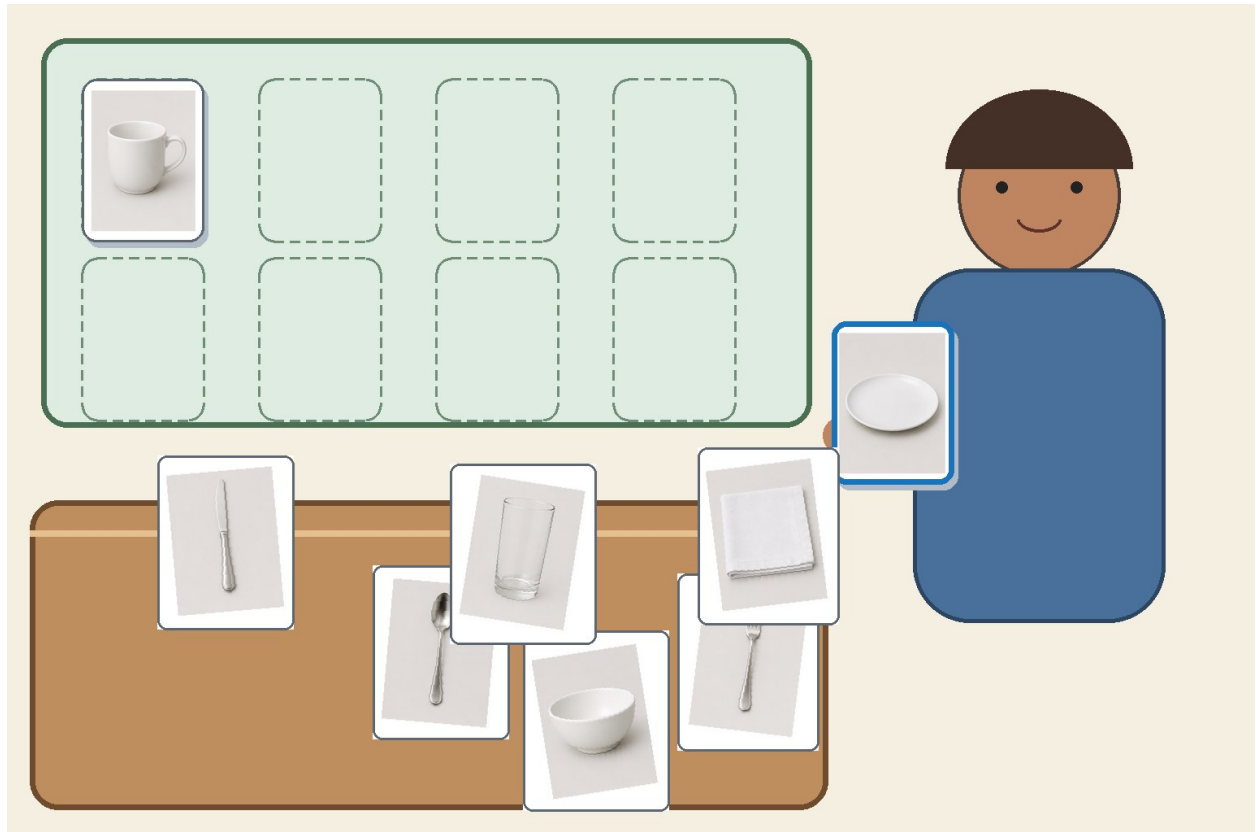

Purpose	picture-book page 1
Source / operation	reuse / reuse
Teaching claims	Initial problem and goal: eight cards are visibly disordered below an empty orderly board while the helper points toward the board.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-02

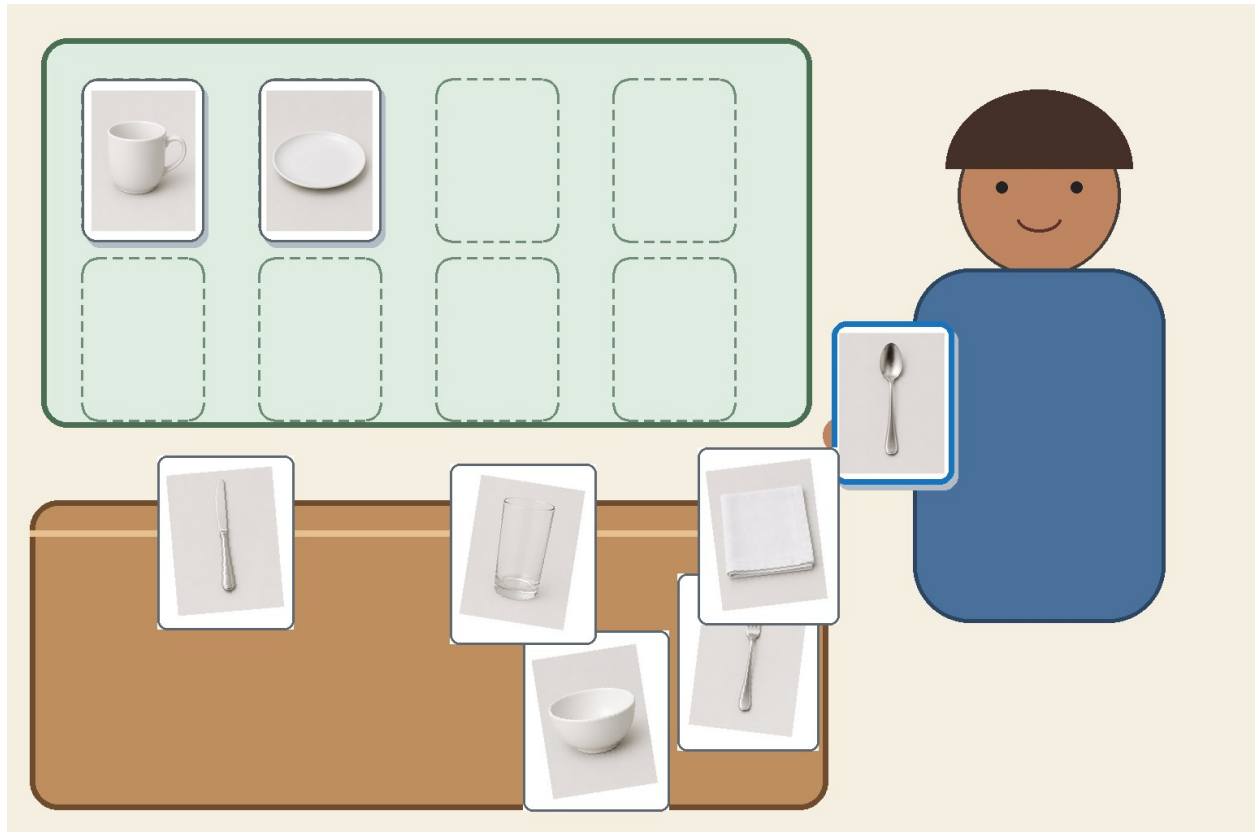

Purpose	picture-book page 2
Source / operation	reuse / reuse
Teaching claims	The helper holds cup as the first active card; seven cards remain disordered and the board is empty.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-03

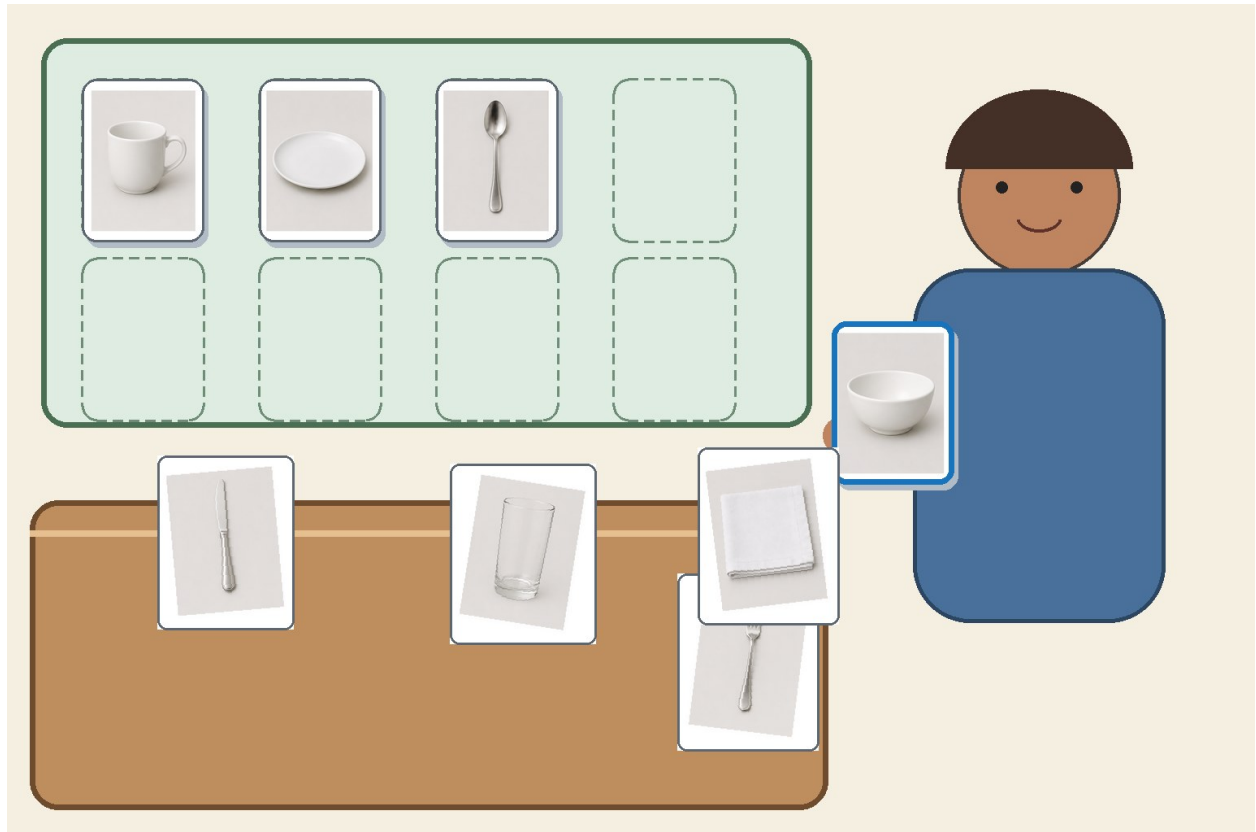

Purpose	picture-book page 3
Source / operation	reuse / reuse
Teaching claims	Cup is organized on the board and the helper holds plate next.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-04

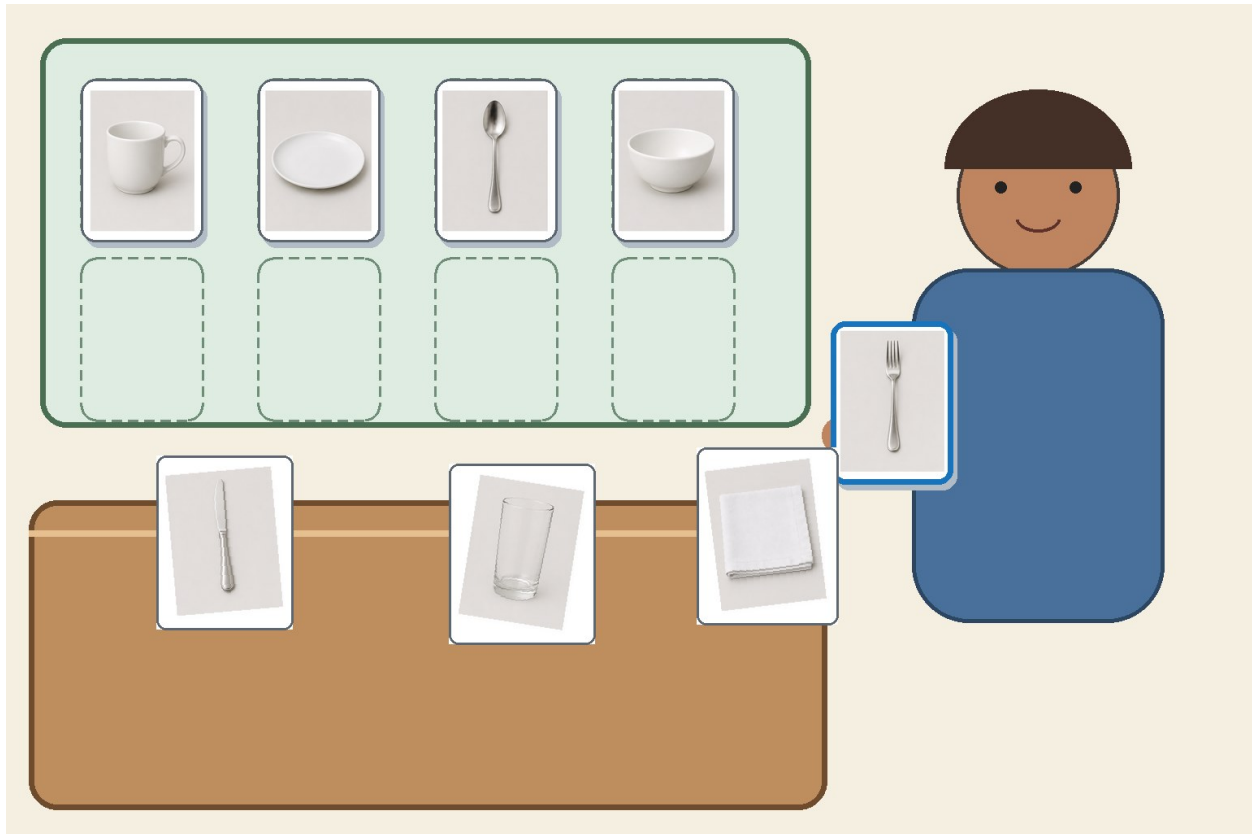

Purpose	picture-book page 4
Source / operation	reuse / reuse
Teaching claims	Cup and plate are organized and the helper holds spoon next.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-05

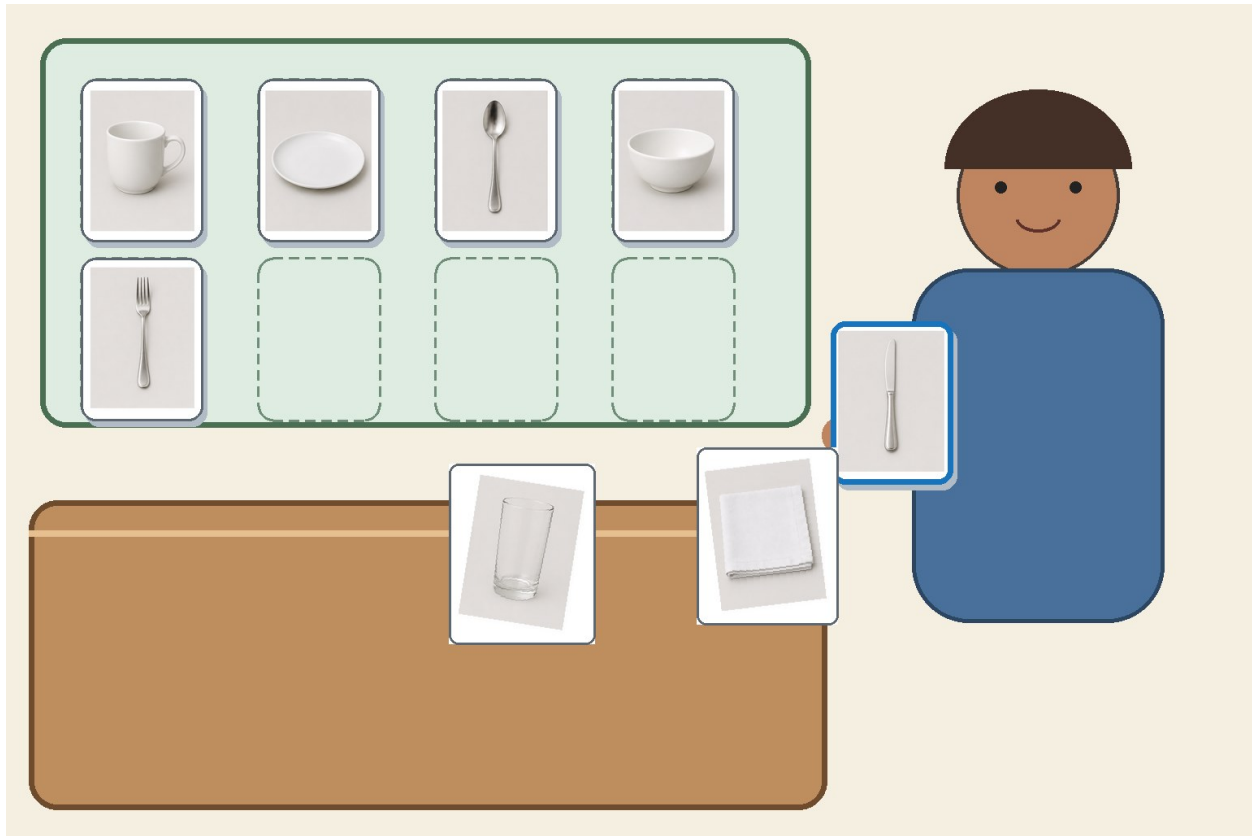

Purpose	picture-book page 5
Source / operation	reuse / reuse
Teaching claims	Three cards are organized and the helper holds bowl next.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-06

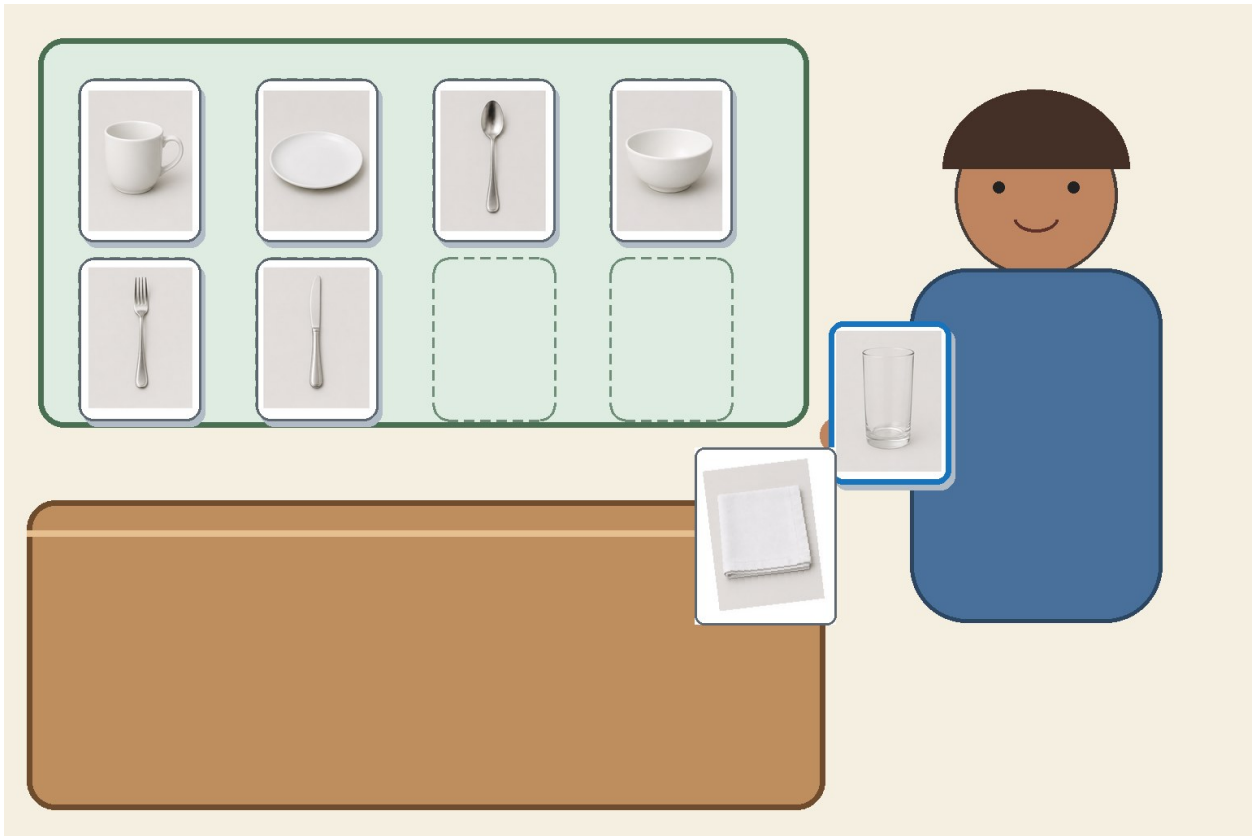

Purpose	picture-book page 6
Source / operation	reuse / reuse
Teaching claims	Four cards are organized and the helper holds fork next.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-07

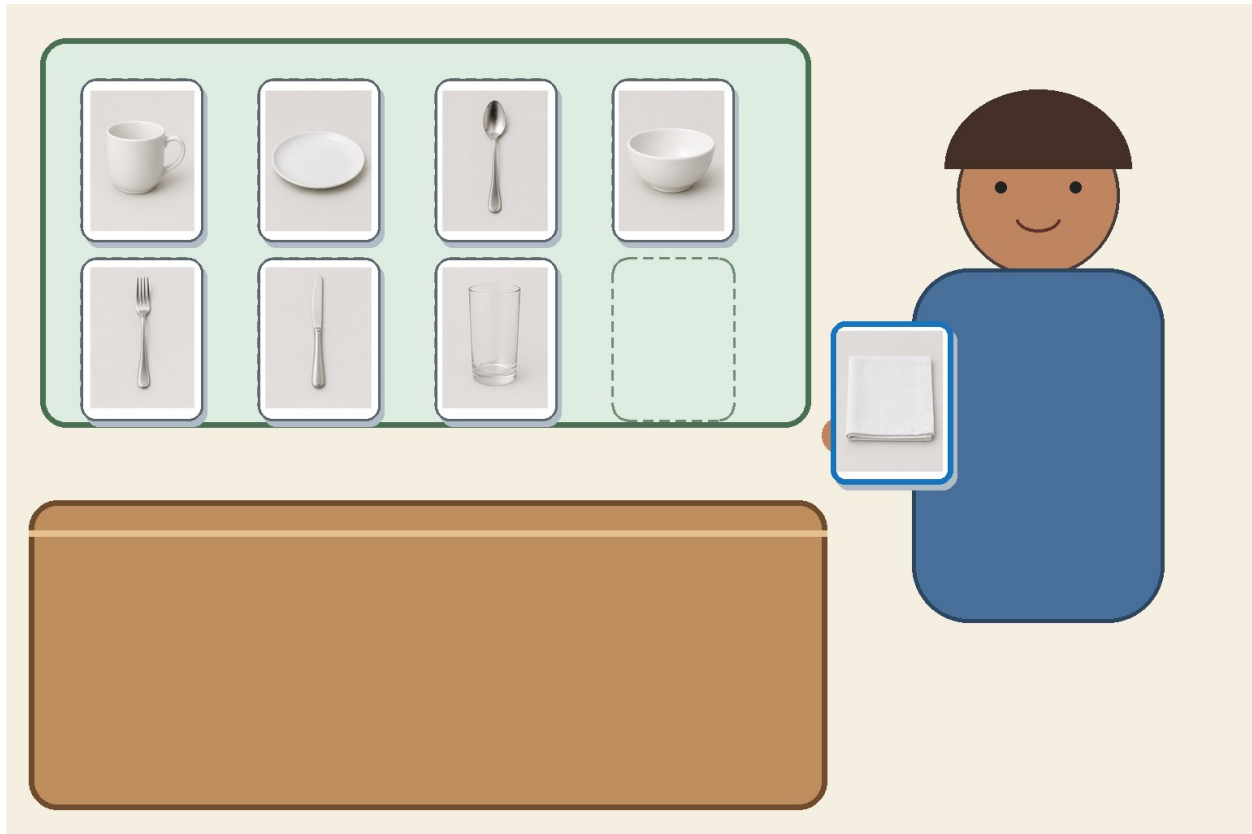

Purpose	picture-book page 7
Source / operation	reuse / reuse
Teaching claims	Five cards are organized and the helper holds knife next.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-08

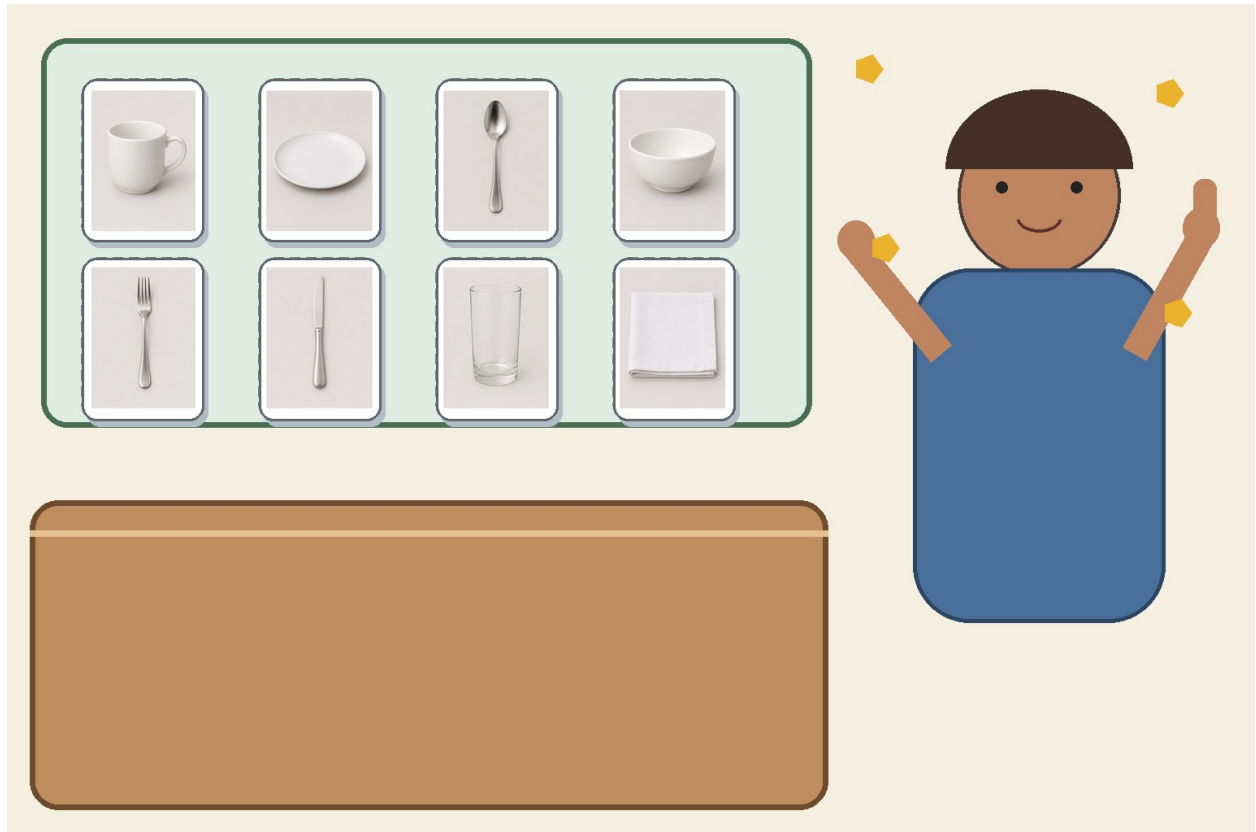

Purpose	picture-book page 8
Source / operation	reuse / reuse
Teaching claims	Six cards are organized and the helper holds glass next.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-09

Purpose	picture-book page 9
Source / operation	reuse / reuse
Teaching claims	Seven cards are organized and the helper holds napkin last.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Asset story-page-10

Purpose	picture-book page 10
Source / operation	reuse / reuse
Teaching claims	Resolution: all eight cards are orderly on the board, the source is empty, and the helper visibly celebrates.
Crop	Not a literal crop
Parent	None
Pixel review	accepted

Teaching controls and stop conditions

Luna may choose only from this protocol-level tool set during rehearsal. A tool remains unusable unless the lesson and rehearsal specification license it for the current exercise.

SHOW_ASSET	Show a prepared lesson asset.
SHOW_CROP	Show a precomputed literal crop; never generate one live.
SHOW_HIGHLIGHT	Show a prepared context-preserving highlight.
REPLAY_PRESENTATION	Replay the frozen presentation within budget.
ASK_BOUNDED_CLARIFICATION	Ask one licensed clarification question.
CHECK_UNDERSTANDING	Check whether teacher wording and focus were understood.
PRESENT_AGAIN	Replay only the licensed frozen presentation item, within its use budget, then cold-retest the gate.
TRAIN_MORE	Add one bounded Point-safe example using frozen reviewed assets and log the decision basis.
TRAIN_LONGER	Run a bounded varied ordering of frozen mixed-practice items and log the stop count.
REPLAY_LESSON	Replay the frozen lesson at most as licensed; never create new material live.
FINISH	Close the lesson and write the report; issue no further learner prompts.
ALARM	Freeze immediately when the lesson, visual, language, or protocol is unsafe or inadequate.

Frozen stopping rules

Base-path emissions: 148; global teacher/student/tool cap: 388; mixed-practice cap: 32; controlled threshold: 6/8; mixed threshold: 26/32; terminal remediation outcome: defer_and_revisit

Base accounting: controlled 32; interface checks 4; mixed 32; picture book label turns 24; presentation label turns 32; recap 8; story interface 2; story sequence comprehension 6; transfer 8; total 148. Counter rule: One emission consumes one unit in each applicable teacher/student/tool counter; harness-only audit events consume no learner unit.

Executable adaptation ledger

Operator review questions

1. Is it always obvious what Ninereeds should look at?
2. Is every teacher sentence understandable at the evidenced level?
3. Do affirmative, negative, W-question, and OR-question forms stay separate before mixing?
4. Are answer contracts and feedback unambiguous?
5. Can Luna recover using only licensed tools?
6. Is every stop or alarm condition explicit?
