

PREVIEW-001

Operator PDF layout preview

Status	draft
Variant	dialogue_only
Target language	This is the oak.
Principal Point	PREVIEW.POINT: A lesson proof places the exact teaching image beside its purpose and dialogue.
Lesson SHA-256	75e33a8ea97eb5c69ca550e43b10e3517bfb6da23a9beb432b4e41b3b297180b

DRAFT - This proof is for inspection and cannot authorize teaching or training.

Why this lesson is next

This non-authoritative fixture exercises the human-readable PDF layout before a real compiled lesson exists.

Predicted dosage

One presentation and one bounded check per controlled form.

Prerequisites

PREVIEW.KNOWN

Presentation - P1

What Luna shows - REUSE

Caption	Give the operator and learner one stable, inspectable referent for every preview dialogue.
Proof	The image visibly contains the oak used by the dialogue.
Source	Asset oak-establishing

Exercise P1

Look at the tree. This is the oak.

Expected	This is the oak.
Must remain true	The oak remains the only highlighted referent.
Visuals	oak-establishing
Target production	Not required

Affirmative practice - A1

What Luna shows - LITERAL CROP

Caption	Isolate the oak trunk and main branches so the referent is unmistakable during bounded questions.
Proof	The crop visibly isolates the oak trunk and preserves enough branches and ground context to identify the tree.
Source	Asset oak-trunk-crop; crop [x=500, y=70, width=800, height=900]

Exercise A1

What is this?

Expected	This is the oak.
Must remain true	Accept only the licensed affirmative form.
Visuals	oak-trunk-crop
Target production	Required

Negative practice - N1

What Luna shows - LITERAL CROP

Caption	Isolate the oak trunk and main branches so the referent is unmistakable during bounded questions.
Proof	The crop visibly isolates the oak trunk and preserves enough branches and ground context to identify the tree.
Source	Asset oak-trunk-crop; crop [x=500, y=70, width=800, height=900]

Exercise N1

Is this the pond?

Expected No. This is the oak.

Must remain true The picture does not change between question and answer.

Visuals oak-trunk-crop

Target production Required

W-question practice - W1

What Luna shows - LITERAL CROP

Caption	Isolate the oak trunk and main branches so the referent is unmistakable during bounded questions.
Proof	The crop visibly isolates the oak trunk and preserves enough branches and ground context to identify the tree.
Source	Asset oak-trunk-crop; crop [x=500, y=70, width=800, height=900]

Exercise W1

What is this?

Expected	This is the oak.
Must remain true	The question asks for the focused object's identity.
Visuals	oak-trunk-crop
Target production	Required

OR-question practice - 01

What Luna shows - REUSE

Caption	Give the operator and learner one stable, inspectable referent for every preview dialogue.
Proof	The image visibly contains the oak used by the dialogue.
Source	Asset oak-establishing

Exercise 01

Is this the oak or the pond?

Expected The oak.

Must remain true Both choices are already known.

Visuals oak-establishing

Target production Required

Mixed practice - M1

What Luna shows - LITERAL CROP

Caption	Isolate the oak trunk and main branches so the referent is unmistakable during bounded questions.
Proof	The crop visibly isolates the oak trunk and preserves enough branches and ground context to identify the tree.
Source	Asset oak-trunk-crop; crop [x=500, y=70, width=800, height=900]

Exercise M1

Look carefully. What is this?

Expected This is the oak.

Must remain true No new vocabulary appears during mixing.

Visuals oak-trunk-crop

Target production Required

Transfer

No exercises in this optional phase.

Visual proof

Asset oak-establishing

Purpose	Give the operator and learner one stable, inspectable referent for every preview dialogue.
Source / operation	canonical grounded-story registry / reuse
Teaching claims	The image visibly contains the oak used by the dialogue.
Crop	Not a literal crop
Parent	None
Pixel review	reviewed_usable

Asset oak-trunk-crop

Purpose	Isolate the oak trunk and main branches so the referent is unmistakable during bounded questions.
Source / operation	deterministic crop of oak-establishing / literal_crop
Teaching claims	The crop visibly isolates the oak trunk and preserves enough branches and ground context to identify the tree.
Crop	[500, 70, 800, 900]
Parent	oak-establishing
Pixel review	reviewed_usable

Teaching controls and stop conditions

Luna may choose only from this protocol-level tool set during rehearsal. A tool remains unusable unless the lesson and rehearsal specification license it for the current exercise.

SHOW_ASSET	Show a prepared lesson asset.
SHOW_CROP	Show a precomputed literal crop; never generate one live.
SHOW_HIGHLIGHT	Show a prepared context-preserving highlight.
REPLAY_PRESENTATION	Replay the frozen presentation within budget.
USE_MARKERS	Use the frozen bounded marker protocol, then retest unmarked.
ASK_BOUNDED_CLARIFICATION	Ask one licensed clarification question.
CHECK_UNDERSTANDING	Check whether teacher wording and focus were understood.
ALARM	Freeze immediately when the lesson, visual, language, or protocol is unsafe or inadequate.

Frozen stopping rules

Maximum teacher turns: 12; mixed-practice cap: 2; completion fraction: 0.8; terminal remediation outcome: defer_and_revisit

Alarm rule

If Luna cannot preserve the Point, understandability, scene truth, tool contract, or stopping budget, Luna presses ALARM. The rehearsal log freezes; repair happens in a new linked attempt.

Audit and review

Conducted entry	PREVIEW-ENTRY
Conducted position	1
Author	Luna
Independent lesson review	preview_only
Instructor qualification	not_run
Asset count	2

Operator review questions

1. Is it always obvious what Ninereeds should look at?
2. Is every teacher sentence understandable at the evidenced level?
3. Do affirmative, negative, W-question, and OR-question forms stay separate before mixing?
4. Are answer contracts and feedback unambiguous?
5. Can Luna recover using only licensed tools?
6. Is every stop or alarm condition explicit?
